RE: Free meals for student through school year 2020-21

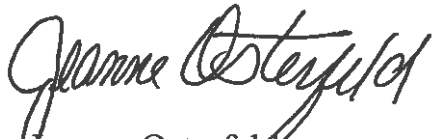

As a public school district participating in the National School Lunch Program, all school districts have received notification of the free breakfast and lunch program being extended through the 2020-2021 school year. This means a FREE breakfast and lunch for ALL STUDENTS in kindergarten through grade 12 regardless of qualifying free/reduced status.

All free meals must be a complete meal. Students may still purchase extra or a la carte items at the established prices. Extra milk can be purchased for \$.50. Charges for these items will be taken from the student's current account balance.

Although all students will continue to receive free meals, **it is important for families to complete the free/reduced application to ensure the eligibility for other possible government assisted programs.**

Please contact Pam Smith, Cafeteria Supervisor, at 419-363-3045 ext 783, or smithp@parkwayschools.org for the free/reduced application. Applications are also available on the Parkway Local Schools website at www.parkwayschools.org.

Sincerely,

Jeanne Osterfeld
Superintendent
